

CHANGE MAKERS ARE THE INNOVATORS OF OUR TIME

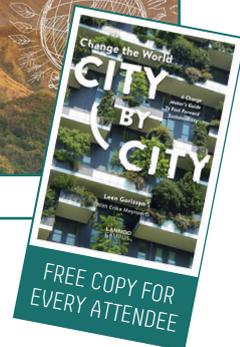

HOW CITIES AND THEIR INHABITANTS CAN CHANGE THE WORLD FOR THE BETTER

It's no secret: the world is changing. The only question is, how will we react? Leuven is already a leader in the field of making positive choices: think about the European Green Leaf award and the iCapital final. Still, even leaders can improve and continue to learn from others.

The book 'Change the World City by City' by Leen Gorissen and Erika Meynaerts focuses on how innovation can improve the world, even through small-scale initiatives and in various environments.

We've invited these visionary thinkers to join our network of Leuven-based actors to discuss how cities, companies, governments, and citizens can help the city to fast forward sustainability.

As Leen and Erika write in their book, "The future is the result of what we all create together." In fact, you'll be able to read the book yourself because a free copy (worth 30€) is included when you register!

WE INVITE YOU TO LEARN FROM:

Brent Toderian
Canadian city planner

Roel Stessens
Vaartopia

Hannes V.D. Eeckhout
Boeren & Buren

Michiel Van Balen
Miss Miyagi

Veronique Charlier
Stad Leuven
